EDUCATION

University of California, Los Angeles (UCLA)

June 2025

Master of Science in Electrical and Computer Engineering

CGPA: 3.96/4.0

Courses: Adv Neural Network and Deep Learning, Statistical Networks, Large-Scale Data Mining

University of Mumbai - Sardar Patel Institute of Technology

May 2023

Bachelor of Technology in Electronics & Telecommunication with Minors in Computer Science

CGPA: 9.45/10.0

Courses: Data Structures & Algorithms, Operating Systems, Object-Oriented Design, AI & ML

TECHNICAL SKILLS

Programming Languages: Python, Golang, C, C++, R, SQL, Java, JavaScript, MATLAB, HTML, CSS

Libraries & Frameworks: Pytorch, TensorFlow, Scikit-learn, Numpy, Pandas, Hadoop, Angular, React, Node.js

Developer Tools: AWS, Azure, GCP, REST APIs, MySQL, Linux, GIT, CI/CD, JIRA, Docker, Kubernetes, LLMs

Other: Generative AI, MLOps, DevOps, Deep Learning, Computer Vision, Cloud Computing, Research

EXPERIENCE

FOX Corporation, Los Angeles, USA - Software Engineering Intern

Sept 2024 – Nov 2024

- Designed, built, and deployed an **Alt-Content service** that **optimized** and **managed** media workflows.
- Reduced latency by **15%**, enhancing experience for **10M+** viewers by integrating **AWS CloudFront** & **Kubernetes**
- Contributed to industry-leading **reliability**, **quality**, and **system performance** for **video streaming**.

Hyphenova, Los Angeles, USA - Software Development Engineer Intern

Jun 2024 – Sept 2024

- Achieved **25%** reduction in page load times by optimizing **React** code and **Next.js** for app landing page
- Streamlined data processing by **30%** by optimizing **data pipelines**, attaining **15%** less data redundancy.
- Performed **code reviews**, ensured **code hygiene**, conducted **bug triages**, and provided feedback on app features

Velosity Global Solutions, Mumbai, India - Machine Learning Engineer Intern

Mar 2023 – May 2023

- Developed a **multi-modal pipeline** (Image, Video, Speech) to identify human sentiment, using **NLP** and **CNN**.
- Designed and implemented custom object detection system using **YOLOv8** and **Faster R-CNN**, resulting in **12% increase** in accuracy and deployed the UI using Streamlit.
- Improved image colorization precision by **15%** using **W-GAN**, enhancing **automated image enhancement** app
- Collaborated with **20+ clients** to assess their business needs and boosted operational efficiency by **15%**.

Deloitte, Mumbai, India - IT and Specialized Quality Assurance Intern

Jan 2022 – Jun 2022

- Enhanced **security** by evaluating **71 applications** and **136 controls** of **Availability** and **Cyber security**.
- Reduced **system downtime** by **25%** through **IT infrastructure assessments**, saving clients **\$20,000** annually

Maven AI Technologies, Mumbai, India - Machine Learning Intern

Jun 2021 – Sept 2021

- Automated extraction** of data from **10+** websites, resulting in a **20%** reduction in **data collection** time.
- Increased deep learning model's accuracy by **15%** through accurate annotation of **10,000+** data points per week
- Collaborated with data scientists, **fine-tuning 5+** deep learning models that attained **97%** precision and recall.
- Produced data **visualizations** and summaries of data characteristics, increasing communication efficiency by **30%**

RESEARCH PROJECTS

Semantic Segmentation for Advanced Land Cover Mapping | Published in IEEE 5th ICIRCA

- Developed a novel semantic segmentation approach, by leveraging base models (**VGG16** and **Resnet50**) as the backbone of the segmentation model (**U-Net**) and achieving an overall classification accuracy of **96.63%**.

Covid-19 Radiography using ConvNets | Published in IEEE 4th SUMMA

- Engineered an **AI-driven diagnostic tool** using ConvNets that analyzed over **5,000+** chest radiographs, achieving a **95.45%** accuracy rate in detecting COVID-19 abnormalities, significantly aiding rapid response initiatives.

Real-Time Counterfeit Currency Detection System | Python, OpenCV, Pytesseract

- Improved currency security by implementing an **image processing pipeline** to authenticate Indian notes, scrutinizing security features. Attained a remarkable **95%** accuracy rate, ensuring detection of counterfeit bills.

LEADERSHIP AND INVOLVEMENT

- Led **25+** students to develop AI-driven projects using **LLMs** for **Accenture**, **Cohere**, **Snowflake** & **Verizon**.
- Guided **60+ underrepresented women and non-binaries in Tech** by teaching **Foundations of ML**.
- Achieved top **5%** rank across India in e-Yantra Robotics Competition by building an **autonomous system**.
